Python in the enterprise COSINE - project summary

Akademia Górniczo-Hutnicza im. Stanisława Staszica w Krakowie
AGH University of Science and Technology

15.01.2018

Members of the team

Dominik Kasperski

Daniel Gut

Michał Kowalczyk

Konrad Wadas

Katarzyna Szydłowska (PM)

What have we done?

COSINE: COmplete System of onlIne Enrollment

Service for organizing events:

· creation of events

· enrolments

· contact by e-mail between the organizer and participants

· forum under the event,

· QR code of the event

· place of event on the map

What we used?

Python 3.6.3

Django 1.11.7

Heroku

Travis

Trello

Github

What we have learned?

- Django
- Git
- Working in a project group
- A bit of Agile methodology (Kanban, Scrum)
